

HOUSEHOLD PLASTIC PACKAGING SORTING

Empty, clean and dry

YES

- Plastic food packaging, yoghurt cups, cheese packaging and ready-meal trays
- Detergent, shampoo and soap packaging
- Other household plastic packaging: bottles, cans, jars, tubes, packaging for toys and tools
- Plastic bags and wrappers
- EPS or Styrofoam packaging

NO

- Mixed waste
- Very dirty plastic packaging
- Plastic products other than plastic packaging
- Plastic packaging containing traces of dangerous substances: ignition fluids, oils, fuels, paints or medicines.

Clean enough

A packaging that has been wiped with tissue paper or rinsed with cold water is clean enough. You should be able to store plastic packaging waste indoors for a week. Incorrectly sorted packaging may cause pest problems.

Remove caps, lids, pumps and similar parts and place them in the collection container separately.
