

BIOWASTE

Organic, solid, compostable waste

YES

- food leftovers
 - gutting remains and peelings
 - coffee filters and tea bags
 - paper towels and serviettes
 - flowers, grass and leaves
- ! No liquids, ash, medicins, cigarette stubs or diapers.

NOTE!

Pack biowaste in a newspaper or in a bio-decomposable bag.

DID YOU KNOW?

Biowaste is made into biogas at Nokia's Koukkujärvi bioplant, Biomyly. Biowaste also recycles valuable nutrients such as phosphorus and nitrogen.
